

CM18

Cash Recycler

CM18

Superior performance.

The Product

Quite possibly the most reliable cash recycler ever built.

For years, the ARCA CM18 has delivered tremendous value, performing manual cash handling tasks much faster than a teller... without human error.

Tellers can focus on great customer service while the CM18 does the busy work. The design and reliability has earned the CM18 an impressive reputation in the industry; it simply works.

It is the foundation of our proven, reliable cash recycler platform and still geared towards the future of cash automation.

Right Size, Right Fit

While the CM18S fits seamlessly under any standard desk, the CM18T is designed for under-the-counter and standing environments while maintaining the same footprint.

Additionally, the CM18T offers a scalable capacity that can grow from 6 to 12 recycling modules at any time. This is achieved simply by inserting more modules. The cassette modules can be configured for any mix of currency denominations to suit the needs of your branch. It's the perfect solution to be shared by two or more tellers in traditional teller lines or pod designs.

Features

- Capacity of \$85,000 to \$200,000+ depending on configuration
- Deposit/dispense in batches of up to 200 notes without limits per transaction
- Full image sensors for visible, UV & IR light plus magnetic and ultra sound sensors
- RS232, USB 2.0 and TCP/IP connectivity

CM18 Tall: 6/8/10/12 cassettes

- Dimensions (h x w x d):
37.01 x 17.32 x 36.10 in
940 x 440 x 917 mm
- Weight: 945.78 lb / 429 kg

CM18 Short: 6/8 cassettes

- Dimensions (h x w x d):
26.42 x 17.32 x 36.10 in
671 x 440 x 917 mm
- Weight: 714.30 lb / 324 kg
